RE: C 109990 Triple J Logging, Inc. 512 South 11th Street, Coeur d'Alene, ID 83814.

Dear Sir/Madam:

Per the conversation I had with your department earlier today, I am officially notifying you:

Today and only today, July 26, 2004, I am acting as a representative of Triple J Logging, Inc. to properly inform you that I am not President, Director or any other representative of the above mentioned corporation effective immediately. Jimmy Anton Weber, 512 South 11th Street, Coeur d'Alene, ID 83814 is appointed President.

Renae Weber

Should there be any additional forms that I must "legally" sign, please send them to me immediately.

I want to go on record with you that although my name as been listed as an officer since 2001, this information was never made available to me until today. Jim Weber is my birth father and has used my name without my knowledge. I have never authorized him to represent me in any situation, personally or professionally. I have not resided with him since I was two years old and have never been involved in any sort of his business. I have never resided in Idaho nor have I ever given him power of attorney to represent me. I do not own any stock from this company or any other company for that matter. I have never acted as an officer. I have never invested a single cent into this company, nor have I ever received any sort of compensation from this company or its owner or owners. I have no knowledge of any of the operations regarding this company. Jim Weber has never supported me (child support wise or other) nor has he given me any in-kind benefits/gifts.

I am a 22 year-old college student simply trying to support myself. Jim Weber's actions have likely caused me irreparable credit damage and greatly reduced my right and chances to qualify for student loans. I am appalled that Idaho allows people to be assigned the position of an officer without a notarized signature, but I now understand that is the way it is.

I appreciate your immediate attention to this situation.

Sincerely,

Renae Weber
