Officer

Secretary of the state of Idaho:

I am writing this letter in regards to an issue that I am concerned about in regards to a company that I have been employed at. I have received a letter from the Idaho department of labor addressed to me in regards to B&B kids inc. stating that as an officer in this corporation I am legally responsible for a debt that they have incurred. Two weeks before the company decided to close their doors to the public marvalynn Bryant and Kim banneck had approached me about signing up to be on a board for the company to renew their licenses for the company because Kim banneck was taking her name off the company. Before I had decided to accept I had asked what this entails as far as being an employee and the responsibility this title carries. Both their responses were that this was a title only to renew their license with the state and by agreeing to this was no financial or any other responsibility to this title. I agreed to this with this understanding and now six months later I am being told by the Idaho department of labor that as an officer I can be held liable because they cannot reach either party. I am writing this letter to see if any way that my name can be removed from this corporation as an officer because I feel that I was lied to and tricked into believing something totally different. If there is an application process or anything that I can do to take care of this matter you can reach me by phone or mail. I appreciate your time in this matter please contact me if I can be of any service in this matter.

Sincerely

Tiffani Cromwell
