Dear Mr. Zadikoff:

You have been notified that your application for licensure in the State of Idaho has been approved and you have been notified of your license number and seal specifications.

On the application, you indicated that you would be offering your services through a corporation. Upon checking our records we do not find that the corporation you listed currently holds a Certificate of Authorization with the Idaho Board of Professional Engineers and Professional Land Surveyors. A copy of Section 54-1235 is attached for your information. An application can be obtained by contacting the Board office.

You are licensed as an individual and, as such, your services cannot be offered through the corporation without the corporation having a Certificate of Authorization.

In addition, the corporation may also need to register with the Idaho Secretary of State for a Certificate of Authority. Please contact that office at (208) 334-2301 for further information.

If you have any questions, please feel free to contact the Board office.

Sincerely,

Linda A. Bowcutt
